

## DMK coupling collar

The coupling collar **DMK** serves for connecting of a fan with a circular duct in the same diameter and at the same time it is of service for decrease of a transfer of vibrations from a fan to duct. The advantage of this type of connection is a possibility to take the fan out of the air ditribution system at any time by reason of some revision, reparation or exchange.

### construction

The collar is made of galvanized steel sheet, sticked with a foam polyethylene sealing of a thickness of 6 mm on its inward side. For a fixation of the collar serves two screws M6 stepped into the ends of the collar: screws as well as nuts are parts of the product. The general constructional settlement of a collar guarantees a high strenght of the construction.
