

FloraNova Grow

FloraNova Bloom

For all growing methods: hydroponics, soil less and soil

Liquid Super Concentrated Nutrient

- The marriage of hydroponic and organic gardening methods
- High performance for all types of plants
- Adapted to all types of waters, hard and soft
- Super concentrated and pH stabilized
- Optimum nutrient absorption is aided by natural humic extracts
- Extremely easy to use
- Superb for hydroponics, soil-less and soil cultivation

FloraNova represents a breakthrough in fertilizer technology, as it gives users both the strength of a dry concentrate and the ease of a liquid. This unique formulation of highly purified minerals and natural additives combines the benefits of hydroponic as well as organic gardening methods. FloraNova, one part formulation, combines all the elements required for hydroponic cultivation, plus it is extremely concentrated. A very small amount of FloraNova mixed with fresh water will provide your plants with proper nutrition. FloraNova works superbly in hydroponic environments, as well as with both soil less mixtures and soil grown plants.

FloraNova Grow:

Works as a specialized nutrient for rapidly growing plants during the structural and foliar growth phase.

FloraNova Bloom:

Use FloraNova Bloom during the flowering and fruiting stages of your plants.

Remember that due to its high concentration, FloraNova must be shaken vigorously before each use!

FloraNova exists in 473 ml (16 Oz), 946 ml (1 QT), 3.79 l (1 Gallon)

How to use FloraNova?

Depending on the life stage of your plant, simply use FloraNova Grow then FloraNova Bloom, until you reach the desired EC level. In soil use a more diluted concentration. Follow the instructions on the labels and don't hesitate to contact us directly for all information. Application charts and nutrition programs, in soil and in hydro, are available.

When do I use FloraNova?

Use FloraNova throughout the entire life of the plant, from the cutting and seedling till harvest, in hydroponics and soil.

Which are the advantages of FloraNova?

One Part guarantees complete nutrition and balanced diet, rich in primary and secondary elements, chelated microelements and organic buffers.

When will I see the results?

In a few days you will notice a clear improvement in the health and the vitality of your plants, their growth rate, the quantity of flowers and fruit, and the profusion of your crops.

Why should I use FloraNova?

FloraNova is a highly concentrated nutrient, efficient and user friendly. Its high concentration responds to the needs of water control and shipping management essential today in a global economy, where these parameters are becoming more important every day.
