

Power Roots is an organic root stimulator. This stimulator is used in the growth phase and the initial weeks of the flowering phase.

Power Roots stimulates root growth and increases the resistance of the plant. It works quickly, is economical and is absorbed by the plant virtually immediately. Power Roots ensures the development of strong plants.

#### Instructions

Shake well before use. Add 1 ml of Power Roots per 1 litre of water (1:1000). Use this solution each time the plants are irrigated until the fourth week of the flowering phase.

#### Composition

Water, humic acids, seaweed extract, ascorbic acid (vitamin C), amino acids, myo-inositol, thiamin (vitamin B1), alpha-tocopherol (vitamin E), Organic NK fertiliser (1-0-2), 1% Total nitrogen (N) of which 1% organic bound nitrogen, 0.2% water-soluble phosphorus pentoxide ( $P_2O_5$ ), 1.5% water-soluble potassium oxide ( $K_2O$ ).

#### Packaging

Power Roots is available in 100ml, 250ml, 500ml & 1L bottle and 5L can.
