

Alga Bloom is a basic plant food that was created especially for soil-based cultivation. Alga Bloom is used during the plant's flowering phase. This fertiliser, which is based on algae, aids in establishing healthy, sound plants that flower profusely.

Instructions

Shake well before use. Add a maximum of 4 ml Alga Bloom per 1 litre of water (1:250). Use this solution each time the plants are irrigated during the flowering phase.

Composition

Water, beet vinasse, amino acids and algae extracts. Organic NPK-fertiliser (3-2-5). 3.3% Total nitrogen (N) of which 3.3% organic bound nitrogen, 2.3% water-soluble phosphorus pentoxide (P_2O_5), 5.4% water-soluble potassium oxide (K_2O).

Packaging

Alga Bloom is available in 100ml, 250ml, 500ml & 1L bottle and 5L & 10L can.
