

Terra Grow is a highly concentrated mineral basic plant food for use during the plant's flowering phase. This liquid fertiliser provides optimum nutrition during flowering and supports and promotes budding. Terra Grow is suitable for all soil mixtures and can be used in conjunction with all liquid fertilisers and additives.

Instructions

Shake well before use. Add a maximum of 5 ml Terra Grow per 1 litre of water (1:200). Use this solution each time the plants are irrigated during the growth phase.

Composition

Water, potassium nitrate, potassium hydrogen phosphate, ammonium nitrate, phosphoric acid. NPK fertiliser (3-1-3). 2.6% Total nitrogen (N) of which 2.0% nitric nitrogen (NO_3) and 0.6% ammoniacal nitrogen (NH_4), 1.1% water-soluble phosphorus pentoxide (P_2O_5), 3.1% water-soluble potassium oxide (K_2O).

Packaging

Terra Grow is available in 100ml & 1L bottle and 5L, 10L & 20L can.
