EN

Add dose per 10 litres of water and apply with every watering.

pH: 6,0

The quoted EC values include the EC value of the tap water at 0.5 mS/cm.

Attention: the maximum EC value of the nutrient water must be less than 3.0 mS/cm!

All stated doses are indications and depend on the condition of the plant.

This Grow Schedule is designed for indoor growing and different types of flower and fruit bearing plants, starting with a young plant like a rooted cutting or a week- old seedling.
The duration of the mentioned period is depending on the type of plant.

PLAGRON.
