

Our nutrient schedule aims to give you general advice on how to grow with Biobizz® products. It explains when to use them and in which periods of the growth cycle you should increase dosages.

Twelve weeks is the estimated average growth cycle, so we use it as a base for our indicated dosages. After testing thoroughly, we conclude that these dosages are enough to prevent deficiencies while keeping organic gardening nice and affordable. The aim for a massive and green yield is not achieved by using more products, but by using as little as possible.

Every plant is different of course. What works for a plant X in a certain environment, does not necessarily work for plant Y in similar conditions. Growing is about experimenting. Try out what is best for you to get amazing results. Our nutrient schedule is purely a guideline, in the end, all roads lead to Rome!

NUTRIENT SCHEDULE

Before you START make a warm bed by using Biobizz® soils

Water 2-3 times a week, no need to water till run-off

A pH-value between 6,2 and 7,0 is ideal

START using fertilizers when your baby plant is 10-15 cm or has 2-4 leaves

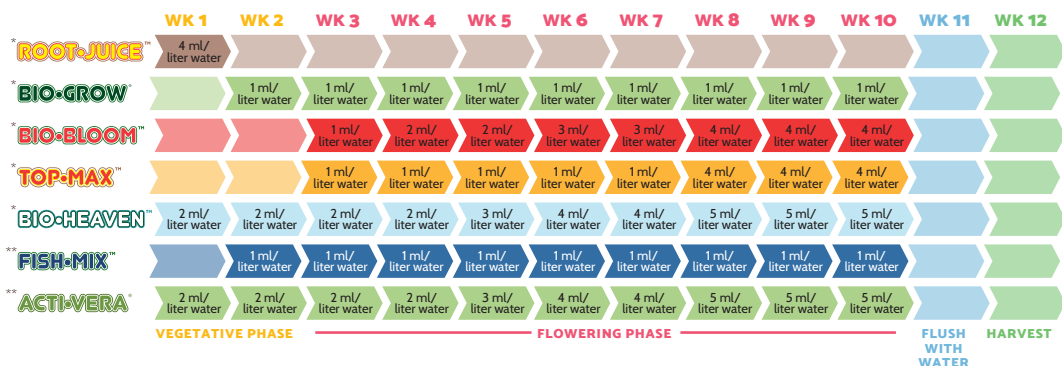

You can mix several fertilizers in the same feeding water

It is always better to be modest than to add more. A plant will not die from too little nutrients, but it won't survive an overdose

Follow this schedule when using

ALL-MIX™

Follow this schedule when using

LIGHT-MIX™

or

COCO-MIX™

Essential for growing on coco: adjust pH & use an enzyme product (e.g. Acti-Vera®)

It is beneficial to replace Bio-Grow®, with Fish-Mix™ in the vegetative phase but switch to Bio-Grow® when you want to trigger flowering.

* For every system: soil, hydro & aeroponics.

** Alg-A-Mic™, Acti-Vera® and Fish-Mix™ can also be applied as a foliar, 1-3 times a week until the second week of flowering. Dose: When using 1 or 2 of the products: 1-2 ml/L water of each. When using all 3 products: max. 1ml/L water of each.

ORGANIC SUBSTRATES

ALL-MIX

- ✓ Most recognised soil in the industry
- ✓ Heavily pre-fertilized substrate mixture
- ✓ Sustains lush growth for weeks
- ✓ High EC value

LIGHT-MIX

- ✓ For a more controlled vigorous growth
- ✓ For seedlings, young plants and cuttings
- ✓ Optimal drainage
- ✓ Middle EC value

COCO-MIX

- ✓ Coco coir base material
- ✓ Works as a rock wool replacement for growing all kinds of hydroponic crops
- ✓ For seedlings, young plants and cuttings
- ✓ Boost of quality and yields
- ✓ Lowers pH to 5/6
- ✓ Low EC

ORGANIC SUBSTRATE ENHANCER

WORM-HUMUS

- ✓ Compost made from worm castings
- ✓ All-round soil improver

*The ideal proportions to aim for are a blend of:
10 - 15% Worm-Humus™ to 85 - 90% All-Mix®.*

ORGANIC DRY FERTILIZER

PRE-MIX

- ✓ Mix of many different organic ingredients
- ✓ For optimum growth and flowering
- ✓ Resistance to diseases and fungi

*Use Pre-Mix™ as a transplant or starter fertilizer.
Blend it into any soil or combine with high-quality organic worm castings.*

ORGANIC FERTILIZERS

BIO-GROW

- ✓ Base product to stimulate growth
- ✓ Derived from 100% organic sugar beet extract
- ✓ A rich food source for soil microbes
- ✓ Vitamines B1, B2, C and E

BIO-BLOOM

- ✓ For exuberant flowers that lead to tasty fruits
- ✓ Optimum blend of nitrogen, phosphorous and potassium
- ✓ An independently working fertilizer
- ✓ Trace elements included

FISH-MIX

- ✓ Accelerates the growth of all living organisms in the substrate
- ✓ Stimulates the production of microorganisms and useful bacteria
- ✓ Transforms poor quality earth into rich, fat soil

ORGANIC ACTIVATOR

ACTI-VERA

- ✓ Stronger and healthier plants, both inside and out
- ✓ Protects and activates the immune system
- ✓ Increases germination and plant metabolism

ORGANIC PLANT STRENGTHENER

LEAF-COAT

- ✓ Protects against insects and damaging leaf fungi
- ✓ Ready-to-use product
- ✓ An environmentally friendly alternative to pesticides

ORGANIC STIMULANTS

TOP-MAX

- ✓ Flowering strengthener (size and weight)
- ✓ Improvement of nutrient uptake
- ✓ Sweeter, smooth tasting crops

ALG-A-MIC

- ✓ Rescue in case overfeeding, deficiencies, diseases or fluctuations in temperature
- ✓ Ensures green leaves
- ✓ Revitalising product with a low level of NPK

ROOT-JUICE

- ✓ Derived from premium humic acid and seaweed
- ✓ Encourages vigorous root development
- ✓ Prepares the plant to absorb nutrients more quickly

ORGANIC ENERGY BOOSTER

BIO-HEAVEN

- ✓ Energy booster
- ✓ Improves moisture retention
- ✓ Stimulates enzymatic activity and fast nutrient absorption
- ✓ Gets rid of toxins

ORGANIC PACKS

Is this your first time trying out Biobizz® products? Then the Starters-Pack™ or Try-Packs are perfect for you. Get to grow like a pro with these high quality complete packs that have been designed to be easy to handle, use and combine. And also available for a nice price. There are four different packs: Indoor, Outdoor, Stimulant and Hydro.

We've created step by step plans for each of the Try-Packs.
