In stock

item code ata\_pk\_13\_14

The combination of phosphorus (P) and potassium (K) ensures a golden ratio and is thus indispensable for a good harvest. In this respect the PK 13-14 is a must for any flowering plant. It is suitable for all substrates, directly absorbable by the plant and contains no ballast substances. Additionally PK 13-14 ensures a healthy root system and is suitable for all crops on soil, hydro, and coco.
