

ATA

The **Ata** products are designed for the grower who wants to grow easily and swiftly, but still want a good end result. Return for a good price-quality ratio.

Ata XL

A clever mix of natural ingredients, added minerals, vitamins and amino acids provides an excellent growing and flowering stimulator. Ata XL is a real miracle drink for your plant! This rich combination has a very favourable impact on the condition of the root system and encourages a growth spurt of the plant with sturdy branches. During the blooming period this powerful stimulator lets the plants flourish even more lavishly and provides well-developed, rich flowers. Since Ata XL exists of natural ingredients, it is possible that an organic odour develops. This does not affect the effectiveness of the product.

Application

Suitable as an addition to the regular NPK nutrition for growing on soil, hydro culture and cocos. Add to the nutrient solution from the 3rd week of growing up to the last week of flowering.

Quality guaranteed

The stimulators and liquid nutrients of Atami are packed and sealed lighttight under the twistable cap, so the quality remains guaranteed.

Available sizes:

- 1 liter
- 5 liter
- 10 liter

Dosage:

1 ml per liter of water.
