

B'cuzz products are intended for the professional grower who wants a maximum yield and return from his crop. For fruit with a deliciously sweet smell and taste.

## B'cuzz Soil A&B

A (young) plant requires important fertilizers. In that respect, our Soil Nutrient A & B still form the base for fine growing results on soil and/or (potting) compost. It is a professional bio-mineral nutrition, providing a stable and biological equilibrium of the substrate. The Soil A & B nutrient contains almost all the necessary nutrients for the whole growth stage. Soil nutrient A & B is suitable for both inside and outside cultivation.

### Application

This nutrient can only be used when the B'cuzz Soil A & B are mixed together in water simultaneously. Use water at room temperature (21° C) for the best results.

### Growing tip

Besides the Soil nutrition A & B the use of bio-stimulators is recommended.

### Quality guaranteed

The stimulators and liquid nutrients of Atami are packed and sealed lighttight under the twistable cap, so the quality remains guaranteed.

### Available sizes:

- 1 liter
- 5 liter
- 10 liter

### Dosage:

Heavily fertilized (potting) compost:	Light fertilized (potting) compost:
1 to 3 ml A and 1 to 3 B ml daily per liter of water.	1 to 5 ml A and 1 to 5 B ml daily per liter of water.

### NPK value:

Soil Nutrition A 4-0-4 (w/v)  
Soil Nutrition B 1-3-5 (w/v)

pH between 5,5 – 5,8

EC between 1,0 – 2,5
