

Giant Plus Garden Tray Black

PRODUCT CODE: G82B

Product Information

At 10cm longer than our G81 - Giant Tray, this tray has proved popular when used by private and commercial gardeners alike as a large irrigation table for keeping a multitude of potted plants watered.

The tray can be filled with grit or capillary matting if preferred. Its sheer size means that by simply filling the tray with a depth of water, a large number of plants can be watered in minimal time. The internal capacity is 28 Litres. A series of shallow horizontal ridges feature on the internal base of the tray which can aid drainage. The tray will fit perfectly on most greenhouse staging and also fits neatly on to commercial 'Danish Trolley' shelves.

Made from recycled polypropylene, this item is available in Budget Black only.
