

**ATA**

The **Ata** products are designed for the grower who wants to grow easily and swiftly, but still want a good end result. Return for a good price-quality ratio.

## Ata Clean

Ensures that the irrigation system remains in good condition. Ata Clean prevents and removes calcium, iron phosphate and algae sediments, to guarantee an optimum irrigation. This organic cleansing means is environmentally friendly and harmless to the plant.

### Application

Especially intended for use in tap water. Mix preventively in the nutrient solution and add during every nutrition cycle. First make the basic nutrition, and if necessary adjust the pH level (5,5-6,0). Let the basic nutrient solution settle and then add the Ata Clean.

### Quality guaranteed

The stimulators and liquid nutrients of Atami are packed and sealed lighttight under the twistable cap, so the quality remains guaranteed.

### Available sizes:

- 250 ml
- 1 liter
- 5 liter

### Dosage:

1 ml per 10 liter of water.
