

Super 7 Electric Windowsill Propagator

PRODUCT CODE: G51

Product Information

While windowsills can often provide ideal light conditions for successful propagation, they can also be cool and draughty. This compact electric propagator is a complete nursery for the windowsill.

Featuring 7 mini vented propagators, ideally sized for the most gardeners, the Super 7 allows the user to grow a large number of plant varieties on just one unit. The heated base contains a 13 Watt carbon fibre element for even heat distribution. This unit is not thermostatically controlled and is designed to increase the ambient compost temperature by around 8° Centigrade.

Size Check: 76cm (30") Long 18.5cm (7.25") Wide 15cm (6") High
