

BioRoot Plus®

root booster

BioRoot Plus is a natural root growth supplement that helps plants establish healthy and vibrant root systems. It contains vitamins, enzymes, organic and humic acids that stimulate root mass.

BioRoot Plus is outstanding for seedlings and cuttings, helping young plants develop strong and massive root systems. For mature plants BioRoot Plus will maintain health by improved nutrient uptake.

Also use BioRoot Plus to soak your seeds in order to increase the germination percentage while improving the health of the young seedling.

For all plants, during the rooting and vegetative stages.

Use with all nutrients, in hydroponics, in any substrate, and in your garden.

Applications: 3 to 5 ml/L in hydro and soil - 3 ml/L in foliar spray (see Bio Roots)
