

PK300/315

Brida: 300/315mm

Airflow max.: 3200m³/h

Rendimiento: 290W

AC Input: 230V 50/60Hz 1,3A

Tmax: 42°C

Dimensión: 522mm x 470mm (w/h)

Peso: 14.20Kg (15.24Kg peso bruto)

The Prima Klima BLUE LINE PK300/315 is equipped with highly efficient German ZIEHL-ABEGG motor with incredible air flow of 3200m³/h and a pressure build-up of up to 650Pa with only 280W and just 1350 rev/min. BLUE LINE ventilator is built for continuous non-stop operation (over 80.000 hours at full speed). Fan can operate at low levels of noise (68dB) and surpasses by far the ERP2015 Energy Efficiency Directive. Power and control systems are located in a high quality junction box fully assembled with a Schuko power cable. Pre-installed, robust mounting brackets allow a perfect positioning in the room.

Features:

- *ZIEHL-ABEGG motor/impeller*
- *Low noise emissions (68dB)*
- *Non-stop operation, over 80.000 hours*
- *Galvanised steel housing*
- *Speed controllable with thermal circuit breaker*
- *Junction box with Schuko power cable*
