

PK355/400

Brida: 355/400mm

Airflow max.: 4800m³/h

Rendimiento: 520W

AC Input: 230V 50/60Hz 2,3A

Tmax: 42°C

Dimensión: 480mm x 500mm (w/h)

Peso: 18.50Kg (20.58Kg peso bruto)

The Prima Klima BLUE LINE PK355/400 is equipped with highly efficient German ZIEHL-ABEGG motor with incredible air flow of 4800m³/h. BLUE LINE ventilator is built for continuous non-stop operation (more then 80.000 hours at full speed). Fan can operate at low levels of noise (72dB) and surpasses by far the ERP2015 Energy Efficiency Directive. Power and control systems are located in a high quality junction box fully assembled with a Schuko power cable. Pre-installed, robust mounting brackets allow a perfect positioning in the room.

Features:

- *ZIEHL-ABEGG motor/impeller*
- *Low noise emissions (72dB)*
- *Non-stop operation, more then 80.000 hours*
- *Galvanised steel housing*
- *Speed controllable with thermal circuit breaker*
- *Junction box with Schuko power cable*
