Green Sensation is a powerful fertiliser that can be used in any cultivation strategy, guaranteeing the best taste and the highest yields. It combines 4 positive effects in 1 bottle. Green Sensation improves flowering, the soil, yields and taste.

Instructions

Shake well before use. Add 1 ml of Green Sensation per 1 litre of water (1:1000). After this, add the basic nutrient until the desired EC value is reached. Use this nutrient solution each time the plants are irrigated. This stimulator was developed especially for the final four to six weeks of the flowering phase.

Composition

EC FERTILISER. PK-fertiliser solution (0-9-10). 9% Water-soluble phosphorus pentoxide (P_2O_5), 10% water-soluble potassium oxide (K_2O).

Packaging

Green Sensation is available in 100ml, 250ml, 500ml & 1L bottle and 5L can.
