

Biotabs®

Bio fertilizing planting tablets 12 –8 –8 for potted plants

Available in 21 and 10 gram tablets

Biotabs® organic fertilizing tablets contain all vital minerals in combination with nitrogen-fixing and phosphorus-solubilising bacteria, fertilizers and slow-release organic nutrients for sustainable plant growth. These planting tablets condition the soil through microbiological activity while fertilizing the plant to achieve healthy, sustainable growth, regardless of plant species or soil type.

Biotabs® tablets are 100% organic.

PRODUCT ADVANTAGES

- A natural and better alternative for slow-release artificial fertilisers
- Improves soil structure and soil bioactivity
- Contains nitrogen-fixing and phosphorus-solubilising bacteria and specific rhizobacteria
- Completely safe for humans, animals and plants, no burning of the roots
- No leaching of nitrogen; the soil bacteria fix free nitrogen again and again
- No residue, odour-free, and very easy to use
