GHE Supplements

Ripen

	1st roots	1st true leaves	Growing	Pretlowering	Flowering	Ripening	Cleaning
G.H. ROOTS	0,1mL/L	0,1mL/L	-	-	-	-	-
DIAMOND NECTAR	-	3mL/L	3mL/L	3mL/L	-	-	-
G.H. PROTECT	-	5mL/L	5mL/L	5mL/L	-	-	-
G.H. BLOOM	-	-	-	0,1mL/L	-	-	-

Organic hydroponics: In recirculating hydroponic systems, substitute Diamond Nectar for Diamond Black (see "G.O Supplements application table").

EC levels are for guidance. Water EC varies so dosages will change, and plant needs change depending on species, strain, climate etc. Start where we recommend, but don't be afraid to gently vary dosages to adapt to your plant's needs

Foliar application: all GHE nutrients and GHE and G.O supplements can be applied as foliar sprays when needed, but avoid use during flowering. Always keep EC of your foliar solutions under 0.6mS.
