
Easy-Rolls & Easy-Hooks

Easy-Rolls naked version, our best seller!!

Easy-Rolls is a light/reflector hanger.

Easy-Rolls is a useful mechanism that allows you to easily adjust the height of your light/reflector as the plant grows.

The possibility of adjusting the reflectors and heavy Cool tube-like systems allows for an increase in the weight of a lamp of up to 5Kg per Easy Roll. So, with 2 Easy-Rolls it's also possible to hold lamps up to 10kg!

Important! Easy-Rolls uses a calibrating function to establish the light/reflector. You just need to calibrate it the first time you use the light/reflector.

THERE IS NO NEED TO ADJUST EASY-ROLLS EACH TIME THE LIGHT HAS BEEN MOVED!!!!

Easy Rolls Blister

Makes it easier to sell in shops once placed on the counter (shelf). Our cardboard blister contains 2 Easy-Rolls and 2 Easy-Hooks.

Thanks to the commode tab, hanging is made easier.

The Barcode is located on the bottom of the blister.
