

Ospel, Netherlands, 25 November 2016

DECLARATION

Object: European Regulation EC 1069/2009 (animal by-products regulation) for Plagron Sugar Royal

BERTELS BV, registered office in Ommelpad 2, 6035PC Ospel, The Netherlands, confirms that the product Plagron Sugar Royal is considered a Organischer NPK-Dünger according to chapter 3.1 of the Düngemittelverordnung - DüMV):

Verordnung über das Inverkehrbringen von Düngemitteln, Boden-hilftstoffen, Kultursubstraten und Pflanzenhilfsmitteln:

Chapter 3.1: Organischer N-, P-, K-, NP-, NK-, PK- oder NPK-Dünger,

The raw materials used for this product (Plagron Sugar Royal) are accepted as in animal by-products regulation (European Regulation EC 1069/2009).

The raw materials used for the production are, despite the animal origin, completely free from any disease and absolutely safe from health point of view. Treated skin does not have nervous termination and, when delivered to the plant, it has already been washed carefully and presents sterile and stabile conditions.
