

PK125EC-TC Temperature Controlled

Flansch: 125mm

Airflow max.: 680m³/h

Leistung: 0-170W

AC Input: 230V 50/60Hz 0.74A

Tmax: 42°C

Messungen: 244mm x 244mm (b/h)

Gewicht: 2,46Kg (3,04Kg

Bruttogewicht)

The Prima Klima PK125EC-TC is small highly efficient inline duct fan equipped with an premium ZIEHL-ABEGG motor with very low power consumption. Device is extremely silent and energy efficient thanks to EC-Technology. The entire housing is made of high impact resistant, flame proof polyamide (nylon). Connections, capacitor and control system are fully integrated into the housing. With the use of the supplied mounting bracket the fan can be easily and safely attached to the wall or ceiling in any position.

Features:

- *premium ZIEHL-ABEGG motor*
- *Temperature and speed control adjustable*
- *Impeller with backward curved blades*
- *Low power consumption*
- *Low noise emissions*
- *Aerodynamically optimised shape*
- *Impact resistant and durable housing*
- *Connection and control system in the housing*
