

INLINE DUCT FAN

An optimised design for high pressure and quiet air movement, the RAM Inline Duct Fan features the patented Fast-Flow™ even air-flow fin. The RAM Inline Duct Fan is supplied with a mounting bracket and fitted with an IEC Socket.

What is Fast-Flow™?

Fast-Flow™ is an anti-turbulence fin. This patented technology slows down the air coming into the fan resulting in a smoother and more direct flow of air into the ducting.

Product specifications

					Single Speed		
Size	Op. temp range	Protection class	Impeller	Power consumption	Current (A)	RPM	Airflow
100mm	-20°C – 50°C	IP44	PA66	69W	0.32	2550	277m3/hr
125mm	-20°C – 50°C	IP44	PA66	74W	0.34	2475	378m3/hr
150mm	-20°C – 50°C	IP44	PA66	96W	0.44	2210	580m3/hr
200mm	-20°C – 50°C	IP44	PA66	166W	0.77	2280	998m3/hr
