

FLOOR AIR CIRCULATOR

With a stylish chrome finish, the RAM Floor Air Circulator is available in 3 sizes and each has a variable degree of tilt for the head. The smallest size has two speed settings and the two bigger sizes have three speed settings from a premium quality motor.

These powerful but quiet floor air circulators help to ensure even room temperature and act as an aid to plant transpiration. They have a finger safe mesh grill, are easy to use with now assembly required. They are fitted with a 1.8m power cord and plug

TIP:

Air circulators work in a different way to fans and are better for moving air within a grow room. To maximise performance it is best to have them tilted upwards.

Product specifications

Technical Specification			
Size	230mm (9")	300mm (12")	400mm (16")
Power	25w	55w	100w
